

Revelation 2018

Agape's Celebration of Love, Inspiration & Transformation

Revelation 2018 is an annual deep dive into that which is Real, a “tune-in” and “tune-up” to the absolute Truth and Presence that is never an absence. When individuals come together with high intentionality, the field of consciousness is multiplied, which enables the magical and mystical to unfold and permeate their lives. The festival combines dynamic speakers and inspirational music alongside sacred silence and meditation designed to accelerate access of all that is for our individual and collective good.

This year's theme “Now is the When and Surrender is the Way” will enable attendees to shift out of daily routine, let go of a time-bound existence and immerse in the Now moment to reveal who they truly are. When there's chaos and fear-based energy in the world, it's time to let go of that which no longer serves and Surrender to that good which is seeking to emerge. Simply, it's about transformation.

Come experience a collective up-leveling of consciousness – no experience required! Take a time out, bring a friend (or two...) and join a global community to:

- Reveal how to be the full expression of Love, Peace and Harmonizing Good
- Wake up to that which is absolute, changeless and eternal
- And so much more...

So check out of your daily life for a few hours or a few days, and check in to what's seeking to express through your life. You'll be guided to open your heart, tap into the field of consciousness, embrace your transformation and welcome your revelation!

If you're ready to be a beneficial presence on the planet – to be your real and authentic self – register now for Revelation 2018.

We consciously enter into this sacred space together. We choose to be in gratitude, joy and appreciation. Our heart bursts with the light, luminosity, and brilliance that takes over our life. We are awake, aware, alive, and alert so that the deeper parts of us emerge as the activity of our awareness, being available to more good than we can possibly imagine. Divine possibilities are reigning supreme everywhere. In our aliveness, in our conscious connection with the presence of life, the presence of love, beauty...this is a new starting point for our lives. Just say yes!

Transform a little. Transform a lot. Transform to the power of ¹ (Transformation¹). Love¹. Joy¹. All are possible at Revelation 2018.
